**Experience a thrilling ride on a cave bike through an underground labyrinth in Valkenburg that extends over 70 kilometres. During this unique experience, you'll team up with a guide to follow a trail through the marl tunnels while discovering the authentic character of the labyrinth.**

You'll meet your guide at a depth of 40 metres under the ground. Once you've been issued with a mountain bike and helmet especially adapted to the tunnels, the adventure begins. You'll follow a route of around 8 km, alternately squeezing through narrow corridors decorated with beautiful wall paintings before emerging into large open spaces. Lit only by your headlamps, the twists and turns come really fast in this underground labyrinth. You'll frequently hear your guide yell 'duck' so that you can bend low over your handlebars to avoid the low ceiling. All these elements make the ride an active and exciting experience.
